Lisa V. Wood is the Executive Director of the Institute for Electric Efficiency. The Institute for Electric Efficiency (IEE) works with the electric utility industry to advance energy efficiency and demand response.

Wood launched IEE after more than two decades of consulting with electric utilities on retail customer issues. In that role, she directed numerous economic, financial, and market analysis studies for leading electric utilities nationwide, with an emphasis on energy efficiency, dynamic pricing, and value of electric service reliability.

Wood has written numerous articles and is a frequent speaker on energy efficiency, smart pricing, and demand response issues in the electric power industry. She most recently authored, *Dynamic Pricing and Low Income Customers; The Right Price: Dynamic Pricing can provide Benefits to Customers and Utilities Alike; New Directions for Energy Efficiency; Assessment of Electricity Savings in the U.S. Achievable through New Appliance/Equipment Efficiency Standards and Building Efficiency Codes; Moving Toward Utility-Scale Deployment of Dynamic Pricing in Mass Markets; and Making the Business of Energy Efficiency Both Scalable and Sustainable*. Wood is a member of the Executive Group for the State Energy Efficiency Action Network, the Board of Directors for the National Energy Foundation, the Energy Efficiency Advisory Council for American Electric Power, and the International Association for Energy Economics. She also serves as an Advisor to Johnson Controls' Institute for Building Efficiency and is an Adjunct Professor at Georgetown University.

Prior to joining IEE, Wood was a Principal with The Brattle Group and Director of the Washington DC office. Prior to that, she was a Principal with PHB Hagler Bailly and a Program Director at Research Triangle Institute. She has a Ph.D. in Public Policy and Management from the Wharton School of the University of Pennsylvania and an M.A. from the University of Pennsylvania.
